

Solution Brief

FastTrack for Microsoft 365

Business challenge

Businesses make huge investments in their Microsoft subscription to enable their organizations to digitally transform and modernise. For businesses adopting and embracing that technology, it can be a big task to learn how to get the most value out of their investment and to accelerate end-user adoption to drive business outcomes .

The Microsoft Fasttrack programme gives clients the opportunity to access resources, best practice advice and remote guidance to support their transformation to the cloud to ultimate realise their Return on Investment for Microsoft 365 (Office 365, Windows 10, and Enterprise Mobility + Security (EMS)) cloud solutions and drive user adoption. As a pan-European FastTrack partner, Insight works closely with your internal teams to ensure your success throughout your Microsoft 365 project.

Eligibility

All clients with current and eligible Microsoft 365 plan subscriptions have access to use the online FastTrack planning, onboarding, migration and adoption resources. In addition, customers with 150+ seats have access to remote guidance from Insight.

With 500+ seats clients then have access to the Microsoft Data migration service for Files and Mail. Whether you are planning your initial rollout, onboarding additional users, migrating existing data, or driving end-user adoption, the Insight FastTrack team are ready to assist you.

How Insight can help

As a pan-European FastTrack Ready partner, Insight are approved by Microsoft to provide the FastTrack benefit to your organisation. With your FastTrack manager your organisation gains access to our Connected Workforce services experts to support your organisation with guidance to accelerate deployment and gain end-user adoption of Microsoft 365.

As a global end-to-end hardware, software, license & managed services provider, Insight has the expertise to support client additional needs with realising the full value from their Microsoft investment.

Your FastTrack journey

Your journey with FastTrack includes assistance with Envisioning, Onboarding, and Driving Value, supported by Insight at every stage:

 <h3>Envision Stage</h3> <p>The Envision stage, guides you in defining your vision for a successful rollout by identifying, prioritising scenarios, and creating a success plan that utilises planning templates and materials.</p>	 <h3>Onboard Stage</h3> <p>During the Onboard stage, remote assistance helps enable your Microsoft 365 services, including requests for Microsoft data migration, guidance through remediation activities, onboard best practice and access to Microsoft SME support.</p> <p>The following workloads are included within FastTrack; Exchange Online, SharePoint Online, Office 365 ProPlus, Intune, AADP, MIP, MCAS, Teams Meeting, Teams Phone System, and Microsoft Defender Advanced Threat Protection.</p>	 <h3>Drive Value Stage</h3> <p>Finally, in the Drive Value stage, you utilise a robust set of tools, guides, and best practices specifically geared toward users in different roles within your organisation. With this guidance, you can tailor your adoption to individuals within your business to get the most from Microsoft 365, for example human resources (HR), research and development (R&D), finance, legal, information technology (IT), and sales groups.</p>

Business outcomes

Deploy new cloud capabilities

FastTrack can help you envision and implement new cloud capabilities by exploring collaboration and productivity apps, best practice for enabling identity, device management and modern security and supporting migrating email and content into the cloud. Use FastTrack services as many times as you need, for the life of your subscription.

Access engineering expertise

End-to-end guidance, delivered remotely by Insight engineers and consultants, helps you successfully deploy cloud solutions and onboard users. From the initial assessment to driving user adoption, FastTrack provides self-serve resources to help throughout the deployment process.

Gain user adoption

Insight knows that your business succeeds when users adopt the solutions you've deployed. The FastTrack online portal offers access to end-user training, adoption templates, and change management guides to help manage change across your organisation.

Why Insight?

Today, technology isn't just supporting the business; it's becoming the business. At Insight, we help you navigate complex challenges to develop new solutions and processes. We will help you manage today's priorities and prepare for tomorrow's needs.
